

# Managed SIEM & XDR

Solution Brief

Inverto managed SIEM and XDR offerings are built on the industry leading Microsoft Azure platform. Providing scalability, native security and best in class protection to meet the modern security requirements of businesses today.

## Overview

The Inverto managed SIEM and XDR plans are designed empower businesses to improve security by making enterprise solutions available in a cost effective way. Utilising cloud economics and industry leading technology to help protect businesses of all sizes. Organisations are facing many challenges in todays security management market, including.

### Cost Challenges

Traditional SIEM solutions are expensive and require costly upfront commitments and per event pricing.

### Alert Fatigue

Thousands of alerts each day prove impossible for security teams to keep on top of. Potentially missing a breach.

### Long Implementation Times

Security management solutions take a long time to implement and fine tune. Leaving the door open for attackers and reducing investment ROI.

## About Inverto

Inverto are a modern professional IT organisation. Transitioning businesses to a new way of working with intelligent systems and security baked into the foundations.

# Managed SIEM & XDR

Solution Brief

## Solution

With Inverto Managed SIEM and XDR, we bring together two offerings to provide proactive protection and a reactive response to prevent attacks throughout the entire killchain.

### Low Cost Entry

Azure Sentinel brings the economy of cloud scale. Allowing you to commit on a monthly basis and scale up or down as required. Complimented by an unrivalled pricing model for management allows the smallest organisation to improve security.

### Automated Response and Machine Learning

Machine learning collates multiple events into one and provides the ability for automated responses. Freeing up security teams to focus on high priority alerts.

### End to End Protection and Monitoring

Azure Sentinel and Azure Defender XDR provide full visibility across your multi cloud and on premise environments. Providing proactive protection for Azure workloads and incident management across your entire estate.

## Benefits

- Pay as you grow model reduces upfront cost
- Achieve compliance
- Achieve over 200% ROI with Azure Sentinel

Response Level	Response Time
Priority 1	1 hour
Priority 2	2 hours
Priority 3	3 hours

## FAQ

### **What happens once I go over the capped investigations per month?**

*Once investigation credits have been consumed, you will have the option to purchase additional investigation credits. Alternatively, incidents and alerts can be sent to an internal contact for review.*

### **I am not sure if these products are a fit for my business. Can I trial them?**

*Yes of course. Not only can you trial them. Inverto security workshops are available to help you understand the benefits of these security products and how they can help you.*

### **Do the plans include the required licencing?**

*The plans do not include any licence costs.*

### **Does the third party integration include management of third party solutions?**

*The cost does not cover management of third party solutions such as network firewalls or endpoint security. Talk to your modern security expert to find out more about further managed services.*
